

Trauma Prevention Classes

Cooper's Level 1 Trauma Center offers numerous traumatic injury prevention programs in South Jersey. Cooper educators are available to take the program to community groups, businesses and schools.

Stop the Bleed

This training teaches effective bleeding control so that in an emergency bystanders are able to act as immediate responders.

Drivers' Education

This program addresses driver education topics and implications of not obeying the rules of the road.

Fall Prevention

This program is presented to senior groups in an effort to reduce the incidence of falls in this population.

TIPP

The Traumatic Injury Protection Program (TIPP) teaches teens how to make good decisions in order to prevent traumatic injury.
